Stevie sent out an LTIG email. If I get a response that will work. I'll let you know if I need any more help.

Thanks

At a minimum I meet today with all lab directors at 4pm. It might be worth having a separate call on this particular issue. Larry Zintek/R5 might be a good contact to start with (although he is mostly LC/MS). Let me know if that's what you want to do and if you need me to make any contacts.

**Subject:** Region 6 help with Ethylene Glycol

Stevie,

It says in the Dimock summary that you or Cindy will contact R5 and R6 today. I would like to know if they have a working ethylene glycol analysis by GC-FID. If they are getting good results I'd like to have a contact to discuss what they are doing.

Are you planning a conference call today?
